

SUBURBAN MUTUAL ASSISTANCE RESPONSE TEAM

Regular VS Associate Membership

Every so often it is a good idea to look at our organization and see what our future is and make necessary adjustments to our by laws.

I am suggesting that we add a second class of membership. Add Associate membership to our Regular membership.

The advantage of having an Associate member would be for both SMART and the Associate community. The Associate community will be on or out of our normal operating fringe area. They would not be able to easily attend our meetings and be a greater distance away for normal reasonable daily responses. Our core members would not qualify for Associate membership.

Both Regular and Associate members would have our box system information. That way everyone knows what all the community resources are.
